BILAL AHMED

ASP.NET Core Developer | Full-Stack .NET Engineer

Karachi, Pakistan | +92 333 3442076 | bilalxdeveloper99@gmail.com | linkedin.com/in/bilal-ahmed-2572a4244

PROFESSIONAL SUMMARY

Results-driven **ASP.NET Core Developer** with **3+ years of experience** engineering, modernizing, and maintaining mission-critical financial, ERP, and enterprise software systems. Proven expertise in building high-throughput **RESTful & SOAP APIs**, optimizing high-volume **SQL Server databases** (stored procedures, indexing, execution plans), and integrating responsive **Angular & React** frontends. Demonstrated track record of slashing query latency by **35%**, automating compliance-heavy financial workflows (EOD, CDC, Settlements), and contributing to **Azure CI/CD** cloud deployments. Adept in Clean Architecture, OOP, and agile SDLC workflows.

TECHNICAL SKILLS

Backend & Frameworks: C#, .NET 8 / 7 / 6, ASP.NET Core, ASP.NET MVC, Web API, Web Forms, Entity Framework Core, LINQ, Dapper, Microservices

Databases & Performance: MS SQL Server, PostgreSQL, MySQL, Stored Procedures, Complex T-SQL, Index Tuning, Query Optimization, Database Normalization, Execution Plans

Frontend & Web Tech: Angular (14+), React.js, AngularJS, JavaScript (ES6+), HTML5, CSS3, Bootstrap, AJAX, JSON

APIs & Integrations: RESTful APIs, SOAP Web Services, JWT Authentication & Authorization, Swagger / OpenAPI, Postman, Payment Gateways

Cloud, Tools & DevOps: Microsoft Azure (App Services, Azure SQL), CI/CD Pipelines, IIS Server, Git, GitHub, Crystal Reports, Visual Studio 2022, SSMS

Methodologies & Concepts: Object-Oriented Programming (OOP), SOLID Principles, Repository Pattern, Dependency Injection (DI), SDLC, Agile / Scrum

PROFESSIONAL EXPERIENCE

Mar 2025 – Present | Karachi, PK **Associate Software Developer (.NET Developer)** | **Catalyst IT Solutions**

- Architect and maintain enterprise-grade web applications using **ASP.NET Core, ASP.NET MVC, and C#**, ensuring **99.9% uptime** across high-availability financial production environments.
- Engineered and optimized **SQL Server stored procedures, indexing structures, and queries**, slashing query response times by **35%** on high-concurrency databases.
- Designed robust **RESTful APIs** and integrated dynamic **Angular & React.js** interfaces, streamlining data exchange and accelerating end-user transaction speeds.
- Rapidly diagnosed and resolved tier-1 production bugs and performance bottlenecks across financial backoffice modules, maintaining near-zero unplanned downtime.
- Collaborated with cross-functional agile teams to deploy microservices components to **Microsoft Azure** via automated **CI/CD pipelines**.

Oct 2023 – Feb 2025 | Karachi, PK **Associate Software Developer** | **Out2Sol IT Services & Consulting**

- Developed scalable line-of-business web applications using **ASP.NET MVC, C#, LINQ, and SQL Server** for diverse enterprise clients.
- Authored over **50+ optimized stored procedures, views, and reporting modules** to power real-time business analytical dashboards.
- Refactored legacy database queries and implemented validation logic, improving system data consistency and application response speed by **25%**.
- Partnered closely with senior architects, QA engineers, and client stakeholders to ship custom enterprise modules within strict sprint deadlines.

Apr 2022 – Aug 2023 | Karachi, PK **ERP Operations Specialist (Data Systems)** | **Alkaram Textile Mills Pvt Ltd**

- Administered ERP inventory tracking and led automated data reconciliation pipelines from Excel to central databases, maintaining **99.8% record accuracy**.
- Monitored chemical store workflows, gaining in-depth practical exposure to core ERP business architecture.

KEY ENTERPRISE PROJECTS

Financial Backoffice Management System (GEM)

ASP.NET (Core & MVC) | SQL Server | REST & SOAP APIs | Crystal Reports

- Maintained and enhanced core brokerage backoffice modules: **Order Management, Portfolio Management, Risk Mitigation, EOD (End-of-Day) Processing, Fund Settlements, and CDC Reporting**.

- Designed and integrated bidirectional **REST and SOAP APIs** for seamless communication with national clearing houses and external financial payment gateways.
- Developed automated **Crystal Reports** delivering daily statutory audit statements, client ledger transactions, and trade confirmations.

Crescent Steel ERP Management System
ASP.NET Core & MVC | C# | SQL Server | REST API

- Developed the **Split Share Module** to automate stock split transactions, real-time portfolio balance adjustments, and shareholder ledger updates.
- Refined transactional stored procedures and optimized database locks, preventing concurrency bottlenecks during heavy financial processing periods.

Digital Account Opening & Unit Trust (Insurance) Modules
ASP.NET Core | Web API | SQL Server | Web Forms

- Automated end-to-end customer KYC and digital onboarding workflow, **reducing customer onboarding turnaround time by 40%**.
- Engineered policy lifecycle system covering policy issuance, automated debit/credit voucher generation, and employee payroll management.

EDUCATION & CREDENTIALS

2026 – In Progress **Bachelor of Science in Computer Science (BSCS)** | **Virtual University of Pakistan**

2021 – 2024 (Grade A) **Higher Diploma in Software Engineering (H.D.S.E)** | **Aptech Computer Education**

2019 – 2021 (Grade A) **Intermediate in Computer Science** | **Modern Sciences College, Karachi**
